Well, they say that you have to start somewhere and my Dad said, I started at Three Years of Age!!! You do not know how many times I heard him say that we spent half of our time looking at cars, from 3 years of age until the Present Time!!! These Muscle Cars and Classic Cars have been a part of me almost my entire life, it has been my hobby for SO many years (and still is) that I do not know much of anything else. I have been a collector-trader-buyer-seller, for fun more than anything else. The cars have actually remained quite simple-it is the serious collection and investments of these muscle and classics that have complicated it a bit more. The real problem is not selling these cars-it is trying to replace them once you have departed with them. I think I actually get my biggest thrills when someone finds the car they love and then I get another thrill of going on the "HUNT" for another one. My son Triston is 12 years of age and already has it bad (Good)-he knows more makes and models than a majority of adults. Once, Triston observed a gentleman detailing his collectible car at an auto show and Triston corrected him about how to apply and remove the wax. Hey this little guy was only four-guess we better all look out!!! Come out and see our New Showroom that has the Nostalgic Look and really represents what these vehicles are all about. I still keep a WIDE Variety of vehicles that I absolutely love. I know how I am attracted to these cars and I know that I do not want to get hurt on a car purchase, nor do I want to hurt anyone on a car purchase. One of the most interesting things with these old cars are the stories that are behind them and believe me, there are some stories and you know most of them started out correct and maybe just got stretched a little!!! If you are looking for an enjoyable, collectable, investment muscle or classic car, give us a call-We can have a conversation about the auto that you are looking for and believe me, we love to talk. We know these cars personally and we will even do a phone walk with you around the car and tell you what we see-negative and positives. Lets see if we can get you in the auto that you really dream about!!! This is a Family Owned and Operated Business. Myself, Rick Prince, and My Daughter, Rachael both know these vehicles top to bottom, front to back, inside and out. If for some reason we give you an answer immediately, we will always find out and get back with you. We love what we do and you do not have to worry about or deal with a bunch of Pesty Salespeople. Good Luck and Happy Looking!!!
