## 2016 Tesla Model X 90D AWD Electric

Your Price: \$89,950

We have for sale a beautiful 2016 Tesla Model X 90D AWD Electric Luxury SUV! This Tesla is like nothing else on the road in terms of what it offers. It's not only the most desirable electric vehicle available, it is also one of the best luxury SUVs on the road, too! This Tesla has a range of over 250 miles on a full charge so there is no risk of running out of battery power or being stranded. Plus, this Tesla has the ability to use the Tesla "Super Charging" network free of charge (Something the new Tesla vehicles have to pay for) The charging stations are all across the U.S. and will give you about a 50% charge in just 20 minutes and of course the Model X can be charged by a standard 110v household outlet or even a 220v outlet to speed up the recharging ability at home. This Tesla as the model name states, uses a 90kWh battery and has "Dual Motors" along with a direct drive transmission and it is all-wheel drive too! This SUV is a blast to drive. It goes 0 to 60mph in UNDER 5 seconds and the driving experience will completely transform how you view driving! The Model X is exceptionally smooth and refined and loaded with technology like the automatic doors, the rear 'Falcon Wing' doors that open vertically and the full LCD dash and 17" touchscreen command center! This Model X has the Autopilot features so it can drive itself while commuting on the highway and it can even back itself into your garage and park itself! It has the 7 seat interior with 3rd row seats so it's more than practical in hauling your family and some friends and it has the Sub-Zero Package so all seven seats have three levels of heat and the steering wheel is heated as well! You really have to see and drive this Tesla to appreciate just how much it has to offer. It is like nothing else on the road! We do TAKE TRADES and OFFER FINANCING as well. If you have any questions or would like to discuss a possible trade, please call anytime.
